

NORTON'S WINTER WONDERLAND

Ground-level Display for Sale

We are seriously considering selling our ground level display with all of the attractions (*train (with track and smoke generating system), Ferris wheel, Merry-go-round, flying swings, double hammer ride, teeter totter, Santa's toyshop with antique animated elfs, train station, santa-in-the-box, snoopy's airplane, flood lights, lit candles, and all of the cutouts and the stuffed animals that ride the attractions*).

We are keeping the Christmas lights, ice cycles, tent poles, sidewalk poles, train wig-wag signal, roof display, cameras and the lit metal framed tree.

This is a difficult decision after running it for 51 years! At our senior age, it is time for us to pass the torch to a younger generation. If you have an interest in a turn-key display that has had national recognition, contact me at dicknorton@gmail.com or leave a note in our mail box.
